HIDDEN IN PLAIN SIGHT

Alimentaria 2016
25 | 28th April

FLAB
ALIMENTAMOS
EL FUTURO
2020

WHY?

Professional, international, specialized, global and innovative.

ALIMENTARIA 2016 is one of the world's most important Food and Beverage trade shows. It is a leading international event whose success derives from its tireless dedication to innovation and the ongoing search for avenues of internationalisation for companies.

From 25 to 28 April, ALIMENTARIA 2016 will once again be the international business hub for all food and beverage industry professionals. With an area of 81,000 m², almost 4,000 exhibitors from more than 60 countries and over 140,000 visitors from Spain and around the world, Alimentaria has become an essential event addressing innovation, the latest trends, and sector internationalisation.

The Food and Beverage industry is the largest in Spain, and has a turnover of more than 90 billion euros, processes 70% of Spanish raw materials and generates in excess of 400,000 jobs. Moreover, exports expanded by 5.5% in 2014, to 23.5 billion euros, with a positive balance of trade.

It is within this extraordinary framework that **ALIBER 2016**, the leading event on food sector innovation, organised by FIAB's RDI department, will be held.

Bold, cutting-edge and multi-format. It's an event for sector professionals interested in creating collaborative spaces between companies and in understanding the future of food industry trends. **It's a can't-miss event.**

ALIBER | HIDDEN IN PLAIN SIGHT

FOR WHOM?

FIAB's RDI department's participation in ALIMENTARIA 2016 has the following objectives: to encourage business cooperation, promote competitiveness, strengthen and reinforce the sector's image, share knowledge and reflect on sustainable development.

To that end, we have prepared a **comprehensive programme** aimed at food companies, food and beverage importers and exporters, chains and procurement centres, hospitality sector companies, specialised shops and other members of the food "ecosystem", such as technology centres, public administrations and associations.

HOW?

FIAB's RDI department's activities will be held in THE ALIMENTARIA HUB, the centre for innovation, expertise and trends for the food sector and a meeting point for the past, present and future.

It's a space that encourages reflection, in constant movement, where there will be product launches, conferences, seminars, speakers, coffee with experts, case studies of entrepreneurship and business meetings.
